

## Mechanical Engineering Contract Design Services for the **Solar Industry**

OneCAD Solutions is a professional engineering company and provides mechanical engineering contract design services, 3D CAD & 2D detail drafting, engineering analysis and reverse engineering.

OneCAD is your "on-call" engineering department if you do not have your own engineering staff - we are ready when you need us. If you have an engineering department, we can supplement your staff on a project basis to help with overflow work; so you'll stay on time, on spec & on budget.

OneCAD also takes on original design work and can turn your ideas into great new products.

OneCAD Solutions is a proud member of CanSIA and is authorized by the Association of Professional Engineers of Ontario to offer professional engineering services .
